

07_SQL_Insights_Summary

Purpose

This section summarizes the key business insights discovered through SQL analysis, KPI development, hypothesis testing, and advanced analytical techniques. These findings provide a comprehensive view of marketplace performance and highlight opportunities for future growth and improvement.

Revenue Insights

- Total marketplace revenue reached 16,008,872.12.
- Revenue generation was highly concentrated, with the top 10 customer states contributing 87.38% of total revenue.
- São Paulo, Rio de Janeiro, and Minas Gerais were the strongest revenue-generating states.
- Bed, Bath & Table, Beauty & Health, and Computer Accessories were the leading revenue-generating categories.
- Revenue performance demonstrated seasonal fluctuations, with November 2017 and March–April 2018 showing particularly strong results.

Customer Insights

- The marketplace served 96,096 unique customers and processed 99,441 orders.
- Average Order Value was 160.99.
- Revenue Per Customer was 166.59.
- Orders Per Customer was 1.03.
- Repeat Purchase Rate was only 3.12%.

Key Observation

Customer acquisition performance is strong, but customer retention remains a significant challenge. Most customers place only a single order.

Product Insights

- Bed, Bath & Table generated the highest revenue and order volume.
- Beauty & Health and Computer Accessories consistently ranked among the top-performing categories.
- PCs generated the highest average order value.
- Product demand is concentrated within a relatively small number of categories.

Key Observation

A limited number of categories drive a substantial share of marketplace revenue, indicating opportunities to focus investment on high-performing product segments.

Operational Insights

- Delivery Success Rate reached 97.02%.
- Order fulfillment performance remained consistently strong throughout the analysis period.
- Operational efficiency contributes positively to the customer experience.

Key Observation

Marketplace logistics and fulfillment operations are reliable and represent a major business strength.

Customer Satisfaction Insights

- Average Review Score was 4.09 out of 5.
- Five-Star Review Rate reached 57.78%.
- Customer sentiment was generally positive across the marketplace.
- Some high-revenue categories received lower customer ratings than expected.

Key Observation

Strong sales performance does not always correspond with high customer satisfaction, creating opportunities for service and product improvements.

Advanced SQL Insights

Advanced SQL analysis using window functions revealed several important trends:

- Revenue growth fluctuated significantly across months.
- February 2017 recorded the highest meaningful month-over-month growth.
- November 2017 generated the highest annual monthly revenue.
- Cumulative revenue exceeded 16 million during the analysis period.
- A small group of sellers and product categories generated a disproportionate share of marketplace revenue.

Key Business Risks

1. Low customer retention and repeat purchasing behavior.
2. Heavy dependence on a limited number of states for revenue generation.
3. Revenue concentration within a small number of product categories.
4. Lower customer satisfaction in certain high-revenue categories.

Key Growth Opportunities

1. Improve customer retention through loyalty and re-engagement programs.
2. Expand successful product categories into underpenetrated regions.
3. Improve customer experience within lower-rated product categories.
4. Strengthen relationships with top-performing sellers.
5. Use seasonal revenue patterns to optimize marketing and inventory planning.

Final Conclusion

The SQL analysis revealed a marketplace with strong revenue performance, efficient operations, and positive customer satisfaction. However, customer retention remains the most significant opportunity for improvement.

Future growth can be accelerated by increasing repeat purchases, improving customer experience in key categories, and reducing dependence on a small number of geographic markets and product segments.
