

03_Stakeholders & KPIs

Stakeholders

Stakeholders are the business teams and decision-makers who use analytical insights to support strategic, operational, and business decisions.

Key Stakeholders

Stakeholder	Business Interest
Executive Leadership	Revenue growth and business performance
Sales & Marketing Team	Customer acquisition and repeat purchases
Operations Team	Delivery efficiency and order processing
Customer Experience Team	Customer satisfaction and review ratings
Product Management Team	Product/category performance
Finance Team	Revenue trends and payment analysis

KPI Overview

Key Performance Indicators (KPIs) are measurable business metrics used to evaluate company performance, operational efficiency, customer behavior, and revenue growth.

Core KPIs

KPI	Business Meaning
Total Revenue	Total income generated from completed orders
Total Orders	Number of successfully placed orders
Average Order Value	Average spending per order
Repeat Purchase Rate	Percentage of customers making multiple purchases
Customer Retention Rate	Ability to retain customers over time
Customer Churn Rate	Percentage of inactive/lost customers
Delivery Time	Average order delivery duration
Customer Satisfaction Score	Customer review performance
Top Product Categories	Highest-performing product categories

KPI	Business Meaning
Payment Success Rate	Successful payment completion percentage

Why KPIs Matter

KPIs help businesses measure growth, identify operational inefficiencies, evaluate customer behavior, and support data-driven decision-making. These metrics will guide the SQL analysis and dashboard reporting throughout the project.

The KPIs are grouped into different business areas to support focused analysis across revenue, customer behavior, operations, products, and customer experience.

KPI Categories

Revenue KPIs

- Total Revenue
- Average Order Value
- Revenue Growth

Customer KPIs

- Retention Rate
- Repeat Purchase Rate
- Churn Rate

Operational KPIs

- Delivery Time
- Order Processing Efficiency

Product KPIs

- Product Performance
- Category Revenue

Customer Experience KPIs

- Review Ratings
